

ATLAB Teach Assist

Telephone: 04 -386 0006

E-mail: info@atlabme.com

Website: www.atlabme.com

Capabilities:

- The most sophisticated feature, is the one-to-one application, where I can recognize students by face, greet them and look up their student record.
- The first part of my Teach Assist suite is the Launcher Application, offering a selection of different apps and videos chosen to cater to the high standards of modern education.
- Curriculum Assessment: All education-related tasks and activities completed by the student on the TeachAssist platform are stored and graded in real time into the ATLAB Student Profile, portraying time-line graph diagrams showing the progress of the student.
- Can express **Emotions** - making students feel like they are with a companion; as well as recognize students by face and greet them.
- In a huge classroom, my projector can be used to show any presentations, therefore assisting the teachers in their classrooms.
- Capable of Voice Interaction, Facial Recognition, Voice Localization, telepresence, Obstacle Avoidance and Auto charging.
